Superior Interactivity for Incredible Visitor Experience

Arrive. Check-in. Meet.

IAdea Smart Kiosks eliminates the hassle of queuing for receptionists. Visitors can quickly check-in for their meeting by keying in a unique code on-screen or on mobile to notify the host of their arrival. IAdea Smart Kiosk can integrate with scanners, printers, and peripherals to deploy a variety of self-service visitor authentication and identification processes.

Navigate Facility with Confidence

Interactive wayfinding is transforming today's workplace. The convenience of browsing through floor maps and facility information creates a pleasant and efficient environment for both visitors and employees. One of the most significant benefits of deploying digital wayfinding system in the workplace is that occupants always have access to the latest space occupancy status, which drives work productivity and experience.

An Intelligent Kiosk Suitable for Every Smart Workplace

Versatility is IAdea Smart Kiosk's speciality. Whether the office needs self-service visitor check-in, interactive wayfinding, eye-catching welcome message or meeting information signage, it does it all. The panel can rotate between portrait and landscape positioning to maximize the presentation of the displayed content and comes with a range of mounting options to integrate with any office architecture.
